About Me

Dedicated Network Engineer with one year of professional experience in networking, routing, switching, and IT infrastructure management. Proficient in configuring and troubleshooting networks using pfSense, with basic expertise in FortiGate firewalls. Experienced in handling diverse IT tasks in a hospital environment, ensuring seamless operations and security. Quick learner with a problem-solving mindset, committed to delivering efficient and reliable network solutions.

Education

F.sc computer science

2014 - 2016

Global degree college | Peshawar, Paskistan

website www.college.globalgroup.edu.pk

I completed my FSC in Computer Science from Global Degree College Peshawar, where I developed a strong foundation in programming and analytical skills. This experience set the stage for my further studies and career in IT.

Diploma computer operator

2017 - 2018

Iqra educational & technical council | Rawalpindi, Pakistan

website www.ietc.org.pk

Bachelor computer science

Final grade 2.78/4 2018 - 2022

Agriculture university | Peshawar, Pakistan

website www.aup.edu.pk

Computer Science graduate with, strong networking skills, and a proven ability to communicate effectively. Self-motivated and committed to delivering quality work in challenging roles

Experience

● Network Internship

03-Mar-2023 - Nov 2023

Peshawar general hospital | Peshawar, Pakistan

website www.pgh.com.pk

This internship has been an incredible learning experience. I've been hands-on with networking and system administration tasks, solving real-world challenges that have expanded my knowledge.
